

EXPOQUIMIA EXHIBITION

The most important chemical exhibition in Spain took place last October 24th 2008.

ALG has participated together with the company Chemieuro (one of ALG'S Customers) and specialized in Plastics, PET, Poliethilenes, etc.

During the exhibition the commercial team of ALG in Barcelona visited to several customers and attended more than 80 visitors in the same stand, offering logistic & transport services as a specialized company in the Chemical Industry.

Actually ALG is still working in some contacts who were interested in many different kind of services: Logistics & Warehousing, crosstrading, import & export of chemical products, tank containers etc.

Eurteam was also represented in the stand with the logo included in the ALG posters presentation.
